

Introducing **My Mobile Money Access**, a new app offered by Wiregrass Federal Credit Union to help you control and monitor card usage anywhere, anytime using your mobile phone. With **My Mobile Money Access** you can protect your card from fraud by setting alerts and controls to determine how your card can be used. And, if you misplace your card, you can use the app to turn it off . . . and then turn it back on when you find it!

You can also use **My Mobile Money Access** to manage your spending. With customizable controls, alerts for spending limits, and easy-to-find account balances, you can set a budget and stick to it.

### Keep an Eye on Your Card with Transaction Alerts

A wide range of alert options make My Mobile Money an app that meets your specific needs. You can set alerts for:

- All card activity
- Spend limits
- Card Not Present transactions
- International transactions
- Card Status changes
- Specific Merchant category purchases
- Dependent Card activity

### Card Controls Help Protect Your Account from Fraud

You can even set the app to deny a transaction before it takes place, based on the criteria you set. As with turning your card on and off, card controls will not interrupt recurring bill payments such as gym memberships or subscriptions.

### Account Management Allows for Greater Control

**My Mobile Money** also has account management features that enable you to keep an eye on your account balance and manage your money no matter where you go.

- MoneyPass® ATM locator
- Balance inquiries
- Account-to-account transfers
- Transaction history
- Low balance alerts
